May 1, 2020

Dear Members of the Henry Viscardi School Community,

In an effort to keep you informed, today Governor Cuomo announced that all schools will be closed statewide for the rest of the academic school year. We will continue to provide distance learning through June 26th. The governor will make a decision about Summer School Programming, during the months of July and August, by the end of May.

Next week is HVS Virtual Spirit Week, we encourage all students to participate. On Friday, May 8th the week will culminate with a birthday celebration of our founder Dr. Henry Viscardi Jr. and a virtual STEM day. We are excited to honor our founder, learn more about his life as a disability rights advocate, and for students to participate in fun STEM activities. Additional information about Virtual Spirit Week and Friday’s activities will be shared by your child’s teacher.

Please stay tuned for updates as the next weeks unfold. Thank you for your continued patience and understanding during this difficult time.

Sincerely,

Angelo Zegarelli
Head of School
