

July 2, 2020

Dear Members of the Henry Viscardi School Community,

First and foremost, I hope my communication today finds everyone well and in good health.

As a reminder, our Summer Program begins July 6<sup>th</sup>, for those students who are participating. The remote learning plan was updated for the summer and reflects formalized opportunities for synchronous (Live) instruction and scheduling information. See the attached remote learning plan update for more details. Parents and students will also be contacted by their teachers and related service providers with scheduling information. Mr. Sweeney continues as our Summer Program Director, and can be reached by email at [msweeney@henryviscardischool.org](mailto:msweeney@henryviscardischool.org) or you can leave a voicemail at (516) 465-3708, throughout the summer for questions that may arise.

Fourth quarter and final reports cards are available on Parent Portal, please review and discuss with your child. If you have difficulty accessing the site, please contact Dina Levanti Bellezze at [dlevanti@henryviscardischool.org](mailto:dlevanti@henryviscardischool.org), the school's Instructional Technology Specialist.

The governor has not announced a decision or provided additional information about bringing students back into the building for the Fall. However, please know HVS is actively engaged in the planning for the reopening of school based on the information and guidance we currently have. We continually monitor the guidance from the State Education Department and the CDC on how to safely bring students and staff back to school. I will communicate the details in the weeks ahead as they become available.

Please take time relax, recharge, and celebrate the Independence of the United States during the upcoming Fourth of July holiday weekend.

Lastly, the following link is a "Part 2" video message from Staff:
