

October 24, 2020

Dear Henry Viscardi School Community:

Today, October 24, the Henry Viscardi School was notified that 2 staff members have tested positive for COVID-19. The staff members were last in school on Monday, October 19, and have been self-quarantining.

The Nassau County Department of Health (DOH) has been notified and determined that under the current circumstances, the staff members' extended absence, the DOH is not issuing additional student or staff quarantine orders.

Out of an abundance of caution, and to mitigate any exposure in the building, the Henry Viscardi School has decided to remain closed through Friday, October 30. During this extended school closure, all students and staff will follow a fully remote schedule until in-person learning resumes on Monday, November 2. We will continue to work collaboratively with the Nassau County Department of Health and will keep you updated and informed every step of the way.

It is imperative to continue to take all the necessary precautions such as staying home when sick, washing your hands often, staying socially distant and wearing a mask. Thank you for your understanding and ongoing cooperation with our COVID-19 policies and procedures as we work to protect our students, staff, and families.

The pandemic is a challenge we continue to face together.

Sincerely,

Angelo Zegarelli
Head of School
